1. Introduction

Have you ever dreamed of participating in the real estate industry, a cornerstone of wealth creation, but felt excluded due to high capital requirements?

Palm Ventures offers a revolutionary solution: a block chain-based platform that democratizes access to real estate opportunities for everyday people.

Through our utility token, \$VISTA, you can join the Palm Ventures ecosystem for a one-time entry fee of \$10 worth of \$VISTA tokens.

This grants access to our crypto staking facility, where token holders may receive rewards tied to the success of real-world property deals, without owning properties or profits.

Palm Ventures is not a traditional investment fund. It is a decentralized, utility-driven platform designed to make real estate accessible, transparent, and rewarding for all.

While other projects claim to democratize access by selling a token, Palm Ventures is one of the first to provide a tangible, real-world utility that is funded by the creator, ensuring a sustainable model from day one.

2. About Palm Ventures

Palm Ventures is a pioneering project that leverages blockchain technology to connect everyday people with real estate opportunities. Unlike traditional real estate ventures, we operate globally, enabling participation without geographic or financial barriers. Key features of Palm Ventures:

- **Accessibility:** A low entry cost of \$10 worth of \$VISTA tokens allows anyone to join the ecosystem.
- **Decentralized Platform:** Built on blockchain, Palm Ventures ensures transparency and global reach.
- **Real-World Impact:** The creator funds property acquisitions, renovations, and resales, with rewards distributed to staked token holders.
- **Utility Focus:** \$VISTA tokens are not securities and do not represent ownership in Palm Ventures, its properties, or profits.

Our mission is to democratize real estate access, empowering everyday people to be part of something bigger without the complexities of traditional property investment.

NOT available in restricted jurisdictions

3. \$VISTA Token Utility

\$VISTA is a utility token launched on platforms like Pump.fun and migrated to a decentralized exchange (DEX). It serves as the key to the Palm Ventures ecosystem.

Tokenomics:

- **Token Supply:** The number of C1 tokens that will ever be minted will be (e.g., 100 million, 1 billion, etc.).
- **Creator Allocation:** 20% allocation at the time of launch/minting. This is a very important detail you should remember.
- **Market Allocations:** The remaining 80% is what is released into the market at time of minting.

Token Utility:

- **Ecosystem Access:** A one-time payment of \$10 worth of \$VISTA tokens grants entry to the Palm Ventures ecosystem, including access to the crypto staking facility.
- **Staking Rewards:** Holders who stake \$VISTA tokens via Smithii's staking app may receive rewards based on the success of property deals. Rewards are discretionary and determined by the creator based on the net profit of a completed property deal. For example, a successful deal might lead to the distribution of X amount of \$VISTA tokens from the treasury to the staking pool. The APY will fluctuate, and no fixed return is guaranteed
- **Transparency:** Token holders receive high-level updates on property acquisitions, renovations, and resales (e.g., selection criteria, before/after photos, timelines).
- **Non-Ownership:** \$VISTA tokens do not represent ownership in Palm Ventures, its properties, or profits. They are strictly for ecosystem participation.

Important: \$VISTA tokens are not an investment, and no returns are guaranteed. Rewards are discretionary and tied to property deal outcomes, not fixed percentages.

NOT available in restricted jurisdictions

4. Crypto Staking with \$VISTA

Palm Ventures uses Smithii's staking app to offer a staking facility for \$VISTA token holders who join the ecosystem. Staking is designed to stabilize \$VISTA's price on the DEX, reduce volatility, and discourage pump-and-dump behavior. Staking Details:

- **Eligibility:** Only token holders who pay the \$10 ecosystem entry fee can stake \$VISTA tokens.
- **Purpose:** Staking creates token scarcity on the DEX, potentially supporting value appreciation through supply and demand.
- **Rewards:** Staked token holders may receive rewards based on profits from property deals, determined by the creator on a sliding scale. Rewards are not guaranteed and depend on market conditions, renovation outcomes, and other risks.
- **No Fixed Returns:** To comply with regulations, rewards are discretionary and not tied to fixed percentages or amounts.
- **Staking Activation:** Staking begins only after \$VISTA migrates to the DEX, as initial capital from token sales is insufficient for property deals.

Note: Staking rewards are a benefit of holding, not a return on investment. Token holders who do not stake can still trade \$VISTA on the DEX like any other token.

NOT available in restricted jurisdictions

The Legal Disclaimer

- **LEGAL DISCLAIMER**

- This document and the \$VISTA token are for informational and utility purposes only. **\$VISTA is not a security, and this is not an investment offer.**
- **No Guaranteed Returns:** Staking rewards are discretionary and contingent on the profitability of real-world property ventures. There is no guarantee of any return, and you may lose the value of your staked tokens.
- **No Ownership:** Holding \$VISTA tokens does not grant you any ownership, equity, or claim to Palm Ventures, its properties, profits, or assets.
- **Risk:** By participating in this ecosystem and acquiring \$VISTA, you acknowledge and accept the inherent risks of both the real estate and crypto currency markets, including the risk of financial loss.
- **Jurisdiction:** \$VISTA tokens are not available in jurisdictions where they may be classified as a security or regulated financial instrument. It is your sole responsibility to comply with all local laws and regulations.

5. Property Acquisition Process

- Palm Ventures focuses on real-world property renovations, funded exclusively by the creator's personal funds, including proceeds from selling their 20% start up token allocation. It is explicitly stated that this is the creator's allocation at time of minting. No funds are pooled from \$VISTA token sales, ensuring the token remains a utility, not a security.

About the Creator section.

- Character:
- Past successes:

Process Overview:

- Acquisition: The creator identifies undervalued properties in markets with low bureaucracy, high demand, and strong resale potential.
- Renovation: Properties are renovated to increase value, managed by experienced contractors.
- Resale: Renovated properties are sold, with profits reinvested into new deals to grow the Palm Ventures ecosystem. A clear breakdown of profit distribution (e.g., 50% for liquidity, 20% for marketing, 10% for the staking rewards pool, etc.).
- Creator's Funding: The creator intends to sell their 20% start up \$VISTA tokens at a rate of approximately 10% per fortnight ensuring transparency and this is done to provide gradual liquidity for the market and to prevent a sudden negative impact on token price. This will also assist in funding the various aspects of the property deals.
- **How Profits Are Converted:** You state that a portion of the real estate profits are used for staking rewards, but you don't say how that works. Do you convert the USD/ZAR profit to SOL and then to VISTA, or do you have a pre-mined token allocation for this? You should have a simple flowchart to show this.

Transparency: Ecosystem members receive regular updates on property selection criteria, renovation progress, and resale outcomes via social channels (e.g., X, Discord). All images and web content related to properties are owned by the creator.

NOT available in restricted jurisdictions

6. Roadmap looking forward

The plans for the future is displayed in a simple quarterly roadmap on condition all steps to migration to DEX are successful:

- **Q3 2025:** Token Launch, Community Building, Website Live.
 - **Q4 2025:** House Acquisition #1, Property registration DApp Goes Live.
 - **Q1 2026:** House Renovation Begins Continues, House marketing
 - **Q2 2026:** House Renovation continues, House marketing.
 - **Q3 2026** House Flip #1 Complete, First Staking Rewards Distributed.
 - **Q4 2026** Acquisition #2, Ongoing Staking Rewards, etc
-

7. Token Minting and Platform Choice

\$VISTA tokens are minted with a fixed supply to prevent dilution and support potential value appreciation through market demand. The token is launched on Pump.fun, a low-cost platform ideal for retail investors, and later migrates to a DEX for broader trading. Why Pump.fun?

- **Accessibility:** Low-cost token creation makes \$VISTA affordable for everyday people.
- **KYC/AML Compliance:** Pump.fun's automated systems provide a level of security that helps mitigate fraudulent activity and bad actors, ensuring a safer environment for our community, this will assist to reduce the administrative burden for Palm Ventures.
- **Pioneering Vision:** By launching on a meme-coin platform, Palm Ventures aims to legitimize tokenization for real-world assets, moving away from pump-and-dump perceptions.

Trading: Non-ecosystem members can trade \$VISTA on the DEX like any other token, while ecosystem members benefit from staking and transparency.

NOT available in restricted jurisdictions

8. Benefits of Joining the Palm Ventures Ecosystem

By paying \$10 worth of \$VISTA tokens to join the ecosystem, you gain:

- **Staking Access:** Use Smithii's app to stake \$VISTA tokens and potentially receive rewards from property deal profits, determined on a sliding scale.
- **Transparency:** Access high-level updates on property acquisitions, renovations, and resales, including before/after photos and market insights.
- **Community:** Join a global community of like-minded individuals passionate about real estate tokenization.
- **Potential Value Appreciation:** The fixed token supply and staking mechanism may support \$VISTA's value growth on the DEX, though this is not guaranteed.

Treasury Usage: The \$10 entry fees are accumulated in the Palm Ventures treasury to:

- Maintain the project website.
- Pay administrative salaries.
- Supplement staking rewards, ensuring long-term sustainability.

Trading Option: Non-staking token holders can buy and sell \$VISTA on the DEX, benefiting from market-driven opportunities (e.g., buy low, sell high).

NOT available in restricted jurisdictions

9. Risks and Disclaimers

Palm Ventures is committed to transparency about risks:

- **Market Volatility:** Real estate and crypto markets are volatile, and \$VISTA token value may fluctuate based on project success or market trends.
- **No Guaranteed Rewards:** Staking rewards are discretionary, not fixed, and depend on property deal outcomes. Losses are possible.
- **Renovation Risks:** Delays, cost overruns, or market shifts may impact property deals.
- **Platform Risks:** Pump.fun is a speculative platform. Palm Ventures mitigates this with a focus on real-world assets and transparency.
- **Regulatory Note:** \$VISTA tokens are not securities and do not represent ownership in Palm Ventures, its properties, or profits. They are not available in restricted jurisdictions (e.g., U.S., China). Participants must comply with local laws.
- **Ownership:** All token images, web content, and intellectual property are owned by the creator of Palm Ventures.

Disclaimer: \$VISTA tokens are not an investment, and no returns are guaranteed. Consult legal and financial advisors before participating.

10. Conclusion

Palm Ventures is your opportunity to join the real estate industry through a low-cost, blockchain-based platform.

For just \$10 worth of \$VISTA tokens, you can access our ecosystem, stake tokens for potential rewards, and be part of a pioneering movement in real estate tokenization. This is not a get-rich-quick scheme.

It's a transparent, community-driven project to make real estate accessible to all.

Don't miss your chance to be part of something bigger!

Get Started: Purchase \$VISTA tokens on Pump.fun or the DEX and join the ecosystem at <http://www.linktr.ee/PalmVentures>.

Hold, stake, and engage with us on X for updates. Your future in real estate starts here!
